EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steven C. Lieske on 2/17/2005.

The application has been amended as follows:

IN THE CLAIMS:

In claim 13, line 1, "comprising:" was replaced by – comprising a tangible medium having embedded therein the following machine readable logic: --.

Required changes to the drawings have been noted by the PTO Draftsperson (see PTO-948 attached to Office Action of 8/8/2002. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

The following is an examiner's statement of reasons for allowance: The Applicant has amended all independent claims to include step (j) allowing the buyer to select from a group of options in order to settle an account using a network wherein the options include: settling a minimum balance, partially settling, settling a full balance, and

applying for an import loan on payment due date. It is noted that the Examiner interprets new limitation (j) as requiring all 4 options to be available to the buyer and therefore a reference showing a single option would not satisfy this limitation. The Examiner has further contacted Applicant and verified that this is Applicant's intent. Finding this combination, especially the option for applying for an import loan on the payment due date has been not been possible. The patent record is nearly silent, except for Applicant's own published application. In the non-patent literature the references which speak most relevantly to it do not satisfy the date requirements (e.g., the HSBC references). Further no reference has been found to the import loan *being applied for* on the day which it is needed. Further, were a reference containing this element to be found, the overall combination would still be allowable due to the great number of references required to teach all elements.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

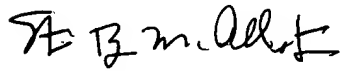

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven B. McAllister whose telephone number is (703) 308-7052. The examiner can normally be reached on M-Th 8-6:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert P. Olszewski can be reached on (703) 308-5183. The fax phone
